

Greening Greenside

2023

Why greening matters?

- Security
- Property values
- Pride in our suburb
- Improve quality of life

“Both the act of engaging in the clean-up and its results can change a neighbourhood's culture and self-image.”

Our focus in 2023: four initiatives

- Numerous issues beyond the capacity of the Greening group – rely on volunteers
- Therefore, focus on 4 areas
- Based on advice from CAP:
 - One of the best things you can do to improve safety in a neighbourhood is to keep verges and parks neat and tidy, cut back overgrown vegetation
